Dear Jim McAfee:

This letter is to personally thank you for taking the time to speak to our group of future Registered Dietitians on May 9th. We feel honored that you were able to spend part of your busy day as Director of Nutritional Research for Image Awareness Corporation and author with our select group.

Your perspective on nutrition was valuable to the interns' graduate education. As advocates for lifelong health promotion and disease prevention, they valued your perspective. Your presentation highlighted the importance of proper nutrition therapy. Your career experience was also interesting and they really enjoyed the manner in which you provided the information. Thank you for strengthening the importance of research based nutrition therapy, which our program continues to enforce in our graduates. Please keep our organization in mind as a connection to reputable registered dietitians. Our interns look forward to reading your upcoming new book.

Sincerely,

A handwritten signature in black ink that reads "M. Oberti".
